VOLUME 37

INDEX TO SCIENTIFIC PAPERS — 1986

SUBJECT INDEX

Abscess
—Failure in placement of trocar-mounted catheters, (Gray, St. Louis, Grosman), 102
—The combination of endoscopic sphincterotomy and percutaneous abscess drainage in the management of complicated biliary pancreatitis, (Frost, Ramsewak, Stevenson), 238

Absorptiometry
—Review: The radiologic measurement of bone, (Hangartner), 143

Acquired Renal Cysts
—Acquired cystic disease of the kidney in patients on hemodialysis, (Taves), 161

Adnexal Mass
—Ultrasound findings in ectopic gestation, (Simons, Cooperberg, Graham), 9

Adrenal Gland
—Fine-needle aspiration biopsy of adrenal tuberculosis, (Yee, Gopinath, Ho, Tao), 287

Adrenal Insufficiency
—Fine-needle aspiration biopsy of adrenal tuberculosis, (Yee, Gopinath, Ho, Tao), 287

Alcoholic Esophagitis
—Acute alcoholic esophagitis, (O'Riordan, Levine, Laufer), 54

Analgesic Nephropathy
—Displaced calcium as a sign of transitional cell carcinoma in analgesic nephropathy, (Marrocco, Leekam, Matzinger, Gray), 122

Aneurysm
—Detection of an asymptomatic gastroduodenal artery aneurysm by real-time and pulsed Doppler sonography, (Dufresne, Dubuc, Nicolet, Prénovault), 40
—Ductus arteriosus aneurysm in Marfan syndrome, (Müller, Mayo, Culham, Nichols), 195
—Ultrasound visualization of a mycotic left gastric aneurysm, (Arenson, Huang, McKee), 285

Aneurysmal Bone Cyst
—Regression of aneurysmal bone cyst following open biopsy, (Scott, Connell, Duncan), 198

Angiography
—Digital imaging of the intracranial circulation using an aortic arch injection and carotid compression, (Banna, Mannen), 184
—Ductus arteriosus aneurysm in Marfan syndrome, (Müller, Mayo, Culham, Nichols), 195
—Methysergide-induced lower extremity arterial insufficiency, (Dorne, Satin), 210

Arterial Disease
—Aspect radiologique et échographique de la maladie de Kawasaki: Expérience de 75 cas à l'hôpital Sainte-Justine de Montréal, (Guerin, van Doesburg, Nicolas, Grignon, Fournier), 229

Arteries
—Comparison of intra-arterial digital subtraction angiography and conventional filming in peripheral vascular diseases, (Sniderman, Morse, Strauss), 76
—Methysergide-induced lower extremity arterial insufficiency, (Dorne, Satin), 210

Arteriovenous Malformations
—Computed tomography of hemangiomas and related soft-tissue lesions in children, (Liu, Daneman, Stringer, Smith), 248

Aspiration Biopsy
—Sonographic guidance of thyroid needle biopsy, (Goldfinger, Rothberg, Stoll), 186

Atlantoaxial Subluxation
—Changes at the base of skull and cervical spine in Down syndrome, (Miller, Capusten, Lampard), 85

Atlas
—Absent dens on submentovertex view of the skull: New sign of an abnormal odontoid, (Gurney), 38

Audit
—Audit procedures in the national breast screening study: mammography interpretation, (Baines, McFarlane, Wall), 256

Barium Examination
—The value of the small bowel enema in children, (Stringer, Cloutier, Daneman, Durie), 13
—Le carcinome à petites cellules ("oat cell" carcinoma) de l'oesophage, une lésion rare: présentation de deux nouveaux cas, (Hurtubise, Paquin), 104

Barium Studies
—Distention of intestinal tube balloons causing small bowel obstruction, (Shapir, Braver), 203

Bile Duct
—Spontaneous extrahepatic biliary duct perforation in infancy, (Fawcett, Hayden, Swischuk, Lobe), 206

Bile Duct Calculi
—Radiologic findings of retroperitoneal perforation after sphincterotomy, (Harker, Button, Passi), 169

Biliary Tract
—Radiologic assessment of bile duct complications in liver transplantation: Initial experience, (Olutola, Hutton, Wall), 276

Bone
—Review: The radiologic measurement of bone, (Hangartner), 143
—Xeroradiography in the diagnosis of the Haglund syndrome, (Burhenne, Connell), 157
—Regression of aneurysmal bone cyst following open biopsy, (Scott, Connell, Duncan), 198

Bone Biopsy
—Regression of aneurysmal bone cyst following open biopsy, (Scott, Connell, Duncan), 198

Bone Density
—Review: The radiologic measurement of bone, (Hangartner), 143

Bronchial Arteries
—Bronchial angiography: A report of 21 patients, (Cadotte, Léger, Harel, Bélanger), 22

Bronchioloalveolar Carcinoma
—Unusual radiologic presentations of bronchioloalveolar carcinoma, (Huang, Weisbrod, Chamberlain), 94

Bronchogenic Carcinoma
—Seeding of malignant cells into the needle track after lung and pleural biopsy, (Müller, Bergin, Miller, Ostrow), 192

Bone Biopsy
—Regression of aneurysmal bone cyst following open biopsy, (Scott, Connell, Duncan), 198

Bone Density
—Review: The radiologic measurement of bone, (Hangartner), 143

Bronchial Arteries
—Bronchial angiography: A report of 21 patients, (Cadotte, Léger, Harel, Bélanger), 22

Bronchioloalveolar Carcinoma
—Unusual radiologic presentations of bronchioloalveolar carcinoma, (Huang, Weisbrod, Chamberlain), 94

Bronchogenic Carcinoma
—Seeding of malignant cells into the needle track after lung and pleural biopsy, (Müller, Bergin, Miller, Ostrow), 192

Bone Resorption
—Plasma cell sclerosis of bone: A spectrum of disease, (Sartoris, Pate, Haghighi, Greenway, Resnick), 25

Bronchial Angiography
—Bronchial angiography: A report of 21 patients, (Cadotte, Léger, Harel, Bélanger), 22

Bronchiectasis
—Cystic fibrosis: A comparison of computed tomography and plain chest radiographs, (Jacobsen, Houston, Habbick, Genereux, Howie), 17

Brown Fat
—Hibernoma: A patient examined by CT, (Coblentz, Roberts, Fitzgerald), 110

Calcification
—Ultrasound diagnosis of a benign calcified testicular mass: Report of a case, (Lipinski, Rao), 112

Cancer
—Unusual radiologic presentations of bronchioloalveolar carcinoma, (Huang, Weisbrod, Chamberlain), 94
—Superior vena caval syndrome in primary mediastinal germ cell tumors, (Holbert, Libshitz), 182

Carcinoma of Cervix
—Mediastinal and hilar lymphadenopathy as the only manifestation of metastatic carcinoma of the cervix, (Scott, Bergin, Müller), 52

Cardiac Arrhythmias
—The incidence of cardiac arrhythmias during intravenous digital subtraction angiography: A comparison of peripheral and central injections, (Treweeke, Thomas), 83

Catheterization
—Segmental renal venous catheterization: technical note, (Zalev), 100

Cerebral Angiography
—Supratentorial hemangioblastoma associated with Von Hippel Lindau disease: Case report and review of the literature, (Miller, Tucker, Bilbao), 35

Cerebral Hemangioblastoma
— Supratentorial hemangioblastoma associated with Von Hippel Lindau disease: Case report and review of the literature, (Miller, Tucker, Bilbao), 35

Ceroid Pigments
—The Hermansky-Pudlak syndrome: Radiographic features, (Leitman, Balthazar, Garay, Naidich, McCauley), 42

Cervical Spine
—Absent dens on submentovertex view of the skull: New sign of an abnormal odontoid, (Gurney), 38

Cervical Spine Degenerative Disease
—Changes at the base of skull and cervical spine in Down syndrome, (Miller, Capusten, Lampard), 85

Chest Radiography
—Cystic fibrosis: A comparison of computed tomography and plain chest radiographs, (Jacobsen, Houston, Habbick, Genereux, Howie), 17
—Mediastinal and hilar lymphadenopathy as the only manifestation of metastatic carcinoma of the cervix, (Scott, Bergin, Müller), 52
—Unusual radiologic presentations of bronchioloalveolar carcinoma, (Huang, Weisbrod, Chamberlain), 94

Cholangiography
—Radiologic findings of retroperitoneal perforation after sphincterotomy, (Harker, Button, Passi), 169
—Radiologic assessment of bile duct complications in liver transplantation: Initial experience, (Olutola, Hutton, Wall), 276

Cholelithiasis
—The combination of endoscopic sphincterotomy and percutaneous abscess drainage in the management of complicated biliary pancreatitis, (Frost, Ramsewak, Stevenson), 238

Chorioangioma
—Placental chorioangioma, an unusual cause of polyhydramnios: Antenatal diagnosis, (Zalev), 60

Chronic Gastric Volvulus
—The differential retrocardiac air-fluid level: A sign of intrathoracic gastric volvulus, (Scott,Felker, Winer-Muram, Pinstein), 119

Chronic Osteomyelitis
—Plasma cell sclerosis of bone: A spectrum of disease, (Sartoris, Pate, Haghighi, Greenway, Resnick), 25

Chylothorax
—Subcutaneous lymphocele following trauma to the thoracic duct, (Saibil, Howard, McKee, Taylor), 213

Comparative Studies
—Comparison of intra-arterial digital subtraction angiography and conventional filming in peripheral vascular disease, (Sniderman, Morse, Strauss), 76

Computed Tomography
—Computed tomography of hemangiomas and related soft-tissue lesions in children, (Liu, Daneman, Stringer, Smith), 248
—Pancreatic cysts and calcification in cystic fibrosis, (Liu, Daneman, Stringer, Durie), 279
—Fine-needle aspiration biopsy of adrenal tuberculosis, (Yee, Gopinath, Ho, Tao), 287
—Lipoma of the liver, (Pham, Manley, Nguyen),
—Recurrent hepatoma with CT, MRI, and angiographic correlation, (Zalev), 114
—Review: The radiologic measurement of bone, (Hangartner), 143
—Computed arthrotomography with multiplanar reformations and three-dimensional image analysis in the evaluation of the cruciate ligaments: Preliminary investigation, (Kursunoglu, Pate, Resnick, André, Sartoris), 153
—Adult polycystic horseshoe kidney, (Dobranowski, Somers, Pirani), 208
—Subcutaneous lymphocele following trauma to the thoracic duct, (Saibil, Howard, McKee, Taylor), 213
—Increased density of tentorium and falx: A false positive CT sign of subarachnoid hemorrhage, (Spiegal, Fox, Vinuela, Pelz), 243
—Cystic fibrosis: A comparison of computed tomography and plain chest radiographs, (Jacobsen, Houston, Habbick, Genereux, Howie), 17
—A technique for multiplanar reformation and three-dimensional analysis of computed tomographic data:application to adult hip disease, (Sartoris, Resnick, Bielecki, André, Gershuni, Meyers), 69
—Unusual radiologic presentations of bronchioloalveolar carcinoma, (Huang, Weisbrod, Chamberlain), 94
—Traumatic pulmonary artery pseudoaneurysm, (Gavant, Winer-Muram), 108
—Hibernoma: A patient examined by CT, (Coblentz, Roberts, Fitzgerald), 110

Condensing Osteitis
—Plasma cell sclerosis of bone: A spectrum of disease, (Sartoris, Pate, Haghighi, Greenway, Resnick), 25

Congenital Anomalies
—Changes at the base of skull and cervical spine in Down syndrome, (Miller, Capusten, Lampard), 85

Congenital Anomaly of the Lung
—Antenatal ultrasound diagnosis of cystic adenomatoid malformation of the lung, (Fitzgerald, Toi), 48

Contrast Esophagography
—Acute alcoholic esophagitis, (O'Riordan, Levine, Laufer), 54

Contrast Media
—The incidence of cardiac arrhythmias during intravenous digital subtraction angiography: A comparison of peripheral and central injections, (Treweeke, Thomas), 83

Coronary Aneurysm
—Aspect radiologique et échographique de la maladie de Kawasaki: Expérience de 75 cas a l'hôpital Sainte-Justine de Montréal, (Guérin, van Doesburg, Nicolas, Grignon, Fournier), 229

Crohn's Disease
—The value of the small bowel enema in children, (Stringer, Cloutier, Daneman, Durie), 13

Cruciate Ligaments
—Computed arthrotomography with multiplanar reformations and three-dimensional image analysis in the evaluation of the cruciate ligaments: Preliminary investigation. (Kursunoglu, Pate, Resnick, André, Sartoris), 153

CT Guided Aspiration
—CT guided percutaneous decompression of a rectal duplication cyst in a child, (Ramsewak, Millward,Toi, Cameron), 46

Cystic Adenomatoid Malformation
—Antenatal ultrasound diagnosis of cystic adenomatoid malformation of the lung, (Fitzgerald, Toi), 48

Cystic Fibrosis
—Cystic fibrosis: A comparison of computed tomography and plain chest radiographs, (Jacobsen, Houston, Habbick, Genereux, Howie), 17
—Pancreatic cysts and calcification in cystic fibrosis, (Liu, Daneman, Stringer, Durie), 279

Cysts
—Acquired cystic disease of the kidney in patients on hemodialysis, (Taves), 161

Decidual Reaction
—Ultrasound findings in ectopic gestation, (Simons, Cooperberg, Graham), 9

Dens
—Absent dens on submentovertex view of the skull: New sign of an abnormal odontoid, (Gurney), 38

Differential Retrocardiac Air-Fluid Levels
—The differential retrocardiac air-fluid level: A sign of intrathoracic gastric volvulus, (Scott, Felker, Winer-Muram, Pinstein), 119

Digital Cerebral Angiography
—Digital imaging of the intracranial circulation using an aortic arch injection and carotid compression, (Banna, Mannen), 184

Digital Subtraction Angiography
—Comparison of intra-arterial digital subtraction angiography and conventional filming in peripheral vascular disease, (Sniderman, Morse, Strass), 76

Digital Subtraction Artery Pseudoaneurysm
—Traumatic pulmonary artery pseudoaneurysm, (Gavant, Winer-Muram), 108

Dislocation
—Dorsal dislocation of the radiocarpal joint with associated dorsal perilunar dislocation, (Klein, Bohrer, Martin), 201

Doppler Sonography
—Detection of an asymptomatic gastroduodenal artery aneurysm by real-time and pulsed Doppler sonography, (Dufresne, Dubuc, Nicolet, Prénovault),40

Down Syndrome
—Changes at the base of skull and cervical spine in Down syndrome, (Miller, Capusten, Lampard), 85

Drugs
—Methysergide-induced lower extremity arterial insufficiency, (Dorne, Satin), 210

Ductus Arteriosus
—Ductus arteriosus aneurysm in Marfan syndrome, (Müller, Mayo, Cullham, Nichols), 195

Duodenal Perforation
—Radiologic findings of retroperitoneal perforation after sphincterotomy, (Harker, Hutton, Passi), 169

Dysphagia
—Comparison of endoscopy and barium swallow with marshmallow in dysphagia, (Somers, Stevenson, Thompson), 73

Ectopic Pregnancy
—Ultrasound findings in ectopic gestation, (Simons, Cooperberg, Graham), 9

Editorial
—The use of low osmolality contrast agents, (Hobbs), 67

Embolization
—Bronchial angiography: A report of 21 patients, (Cadotte, Léger, Harel, Bélanger), 22

Endoscopic Retrograde Cholangiography
—Radiologic findings of retroperitoneal perforation after sphincterotomy, (Harker, Hutton, Passi), 169

Endoscopic Sphincterotomy
—Radiologic findings of retroperitoneal perforation after sphincterotomy, (Harker, Hutton, Passi), 169

Endoscopy
—Comparison of endoscopy and barium swallow with marshmallow in dysphagia, (Somers, Stevenson, Thompson), 73

Enteroclysis
—The value of the small bowel enema in children, (Stringer, Cloutier, Daneman, Durie), 13

Epidermoid Tumor
—Epidermoid tumor: An unusual cause of ossification within the spinal canal, (Willinsky, Tator, Lewis, Cooper, Kassel), 56

Esophagitis
—Acute alcoholic esophagitis, (O'Riordan, Levine, Laufer), 54

Esophagus
—Comparison of endoscopy and barium swallow with marshmallow in dysphagia, (Somers, Stevenson, Thompson), 73
—Le carcinome à petites cellules ("oat cell" carcinoma) de l'oesophage, une lésion rare: présentation de deux nouveaux cas, (Hurtubise, Paquin), 104

Falx
—Increased density of tentorium and falx: A false positive CT sign of subarachnoid hemorrhage, (Spiegel, Fox, Vinuela, Pelz), 243

Femur
—A technique for multiplanar reformation and three-dimensional analysis of computed tomographic data: application to adult hip disease, (Sartoris, Resnick, Bielecki, André, Gershuni, Meyers), 69

Fetus
—The ultrasonographic features of nonimmune hydrops fetalis: A study of 30 successive patients, (Brown), 164
—Prenatal and immediate postnatal ultrasonographic diagnosis of ureterocele, (Fitzsimons, Frost, Millward, DeMaria, Toi), 189

Fluoroscopy
—The value of the small bowel enema in children, (Stringer, Cloutier, Daneman, Durie), 13

Focal Intrahepatic Lesions
—Ultrasonically guided fine-needle biopsy in focal intrahepatic lesions: six years' experience, (Bret, Sente, Bretagnolle, Fond, Labadie, Paliard), 5

Gastric Malrotation
—The differential retrocardiac air-fluid level: A sign of intrathoracic gastric volvulus, (Scott, Felker, Winer-Muram, Pinstein), 119

Gastric Volvulus
—The differential retrocardiac air-fluid level: A sign of intrathoracic gastric volvulus, (Scott, Felker, Winer-Muram, Pinstein), 119

Gastroduodenal Artery
—Detection of an asymptomatic gastroduodenal artery aneurysm by real-time and pulsed Doppler sonography, (Dufresne, Dubuc, Nicolet, Prénovault), 40

Gastrointestinal Intubation Complications
—Distention of intestinal tube balloons causing small bowel obstruction, (Shapir, Braver), 203

Gastrointestinal Radiology
—Parrish lecture: New horizons in GI radiology, (Stevenson), 261

Granulomatous Colitis
—The Hermansky-Pudlak syndrome: Radiographic features, (Leitman, Balthazar, Garay, Naidich, McCauley), 42

Haglund Syndrome
—Xeroradiography in the diagnosis of the Haglund syndrome, (Burhenne, Connell), 157

Hemangioma
—Computed tomography of hemangiomas and related soft-tissue lesions in children, (Liu, Daneman, Stringer, Smith), 248

Hemoptysis
—Bronchial angiography: A report of 21 patients, (Cadotte, Léger, Harel, Bélanger), 22

Hepatobiliary Scintigraphy
—Spontaneous extrahepatic biliary duct perforation in infancy, (Fawcett, Kayden, Swischuk, Lobe), 206

Hepatoma
—Recurrent hepatoma with CT, MRI, and angiographic correlation, (Zalev), 114

Hermansky-Pudlak Syndrome
—The Hermansky-Pudlak syndrome: Radiographic features, (Leitman, Balthazar, Garay, Naidich, McCauley), 42

Hibernoma
—Hibernoma: A patient examined by CT, (Coblentz, Roberts, Fitzgerald), 110

Hilar Adenopathy
—Cystic fibrosis: A comparison of computed tomography and plain chest radiographs, (Jacobsen, Houston, Habbick, Genereux, Howie), 17

Hip
—A technique for multiplanar reformation and three-dimensional analysis of computed tomographic data: application to adult hip disease, (Sartoris, Resnick, Bielecki, André, Gershuni, Meyers), 69

Horseshoe Kidney
—Adult polycystic horseshoe kidney, (Dobranowski, Somers, Pirani), 208

Hydronephrosis
—Prenatal and immediate postnatal ultrasonographic diagnosis of ureterocele, (Fitzsimons, Frost, Millward, DeMaria, Toi), 189

Hydrops Fetalis
—The ultrasonographic features of nonimmune hydrops fetalis: A study of 30 successive patients, (Brown), 164

Iatrogenic Disease
—Methysergide-induced lower extremity arterial insufficiency, (Dorne, Satin), 210

Image Display
—A technique for multiplanar reformation and three-dimensional analysis of computed tomographic data: application to adult hip disease, (Sartoris, Renick, Bielecki, André, Gershuni, Meyers), 69

Image Reconstruction
—A technique for multiplanar reformation and three-dimensional analysis of computed tomographic data: application to adult hip disease, (Sartoris, Resnick, Bielicki, André, Gershuni, Meyers), 69
—Computed arthrotomography with multiplanar reformations and three-dimensional image analysis in the evaluation of the cruciate ligaments: Preliminary investigation, (Kursunoglu, Pate, Resnick, André, Sartoris), 153

Injury
—Dorsal dislocation of the radiocarpal joint with associated dorsal perilunar dislocation, (Klein, Bohrer, Martin), 201

Interventional Radiology
—The combination of endoscopic sphincterotomy and percutaneous abscess drainage in the management of complicated biliary pancreatitis, (Frost, Ramsewak, Stevenson),
—Ultrasonically guided fine-needle biopsy in focal intrahepatic lesions: six years' experience, (Bret, Sente, Bretagnolle, Fond, Labadie, Paliard), 5

—Distention of intestinal tube balloons causing small bowel obstruction, (Shapir, Braver), 203

Intestine
—Distention of intestinal tube balloons causing small bowel obstruction, (Shapir, Braver), 203

Intraspinal Ossification
—Epidermoid tumor: An unusual cause of ossification within the spinal canal, (Willinsky, Tator, Lewis, Cooper, Kassel), 56

Intrathoracic Gastric Volvulus
—The differential retrocardiac air-fluid level: A sign of intrathoracic gastric volvulus, (Scott, Felker, Winer-Muram, Pinstein), 119

Intravenous Digital Angiography
—The incidence of cardiac arrhythmias during intravenous digital subtraction angiography: A comparison of peripheral and central injections, (Treweeke, Thomas), 83

Joints
—Pyoderma gangrenosum and erosive peripheral arthritis, (Griffiths, Sundaram), 125
—Computed arthrotomography with multiplanar reformations and three-dimensional image analysis in the evaluation of the cruciate ligaments: Preliminary investigation. (Kursunoglu, Pate, Resnick, André, Sartoris), 153
—Dorsal dislocation of the radiocarpal joint with associated dorsal perilunar dislocation, (Klein, Bohrer, Martin), 201

Kappa
—Audit procedures in the national breast screening study: Mammography interpretation, (Baines, McFarlane, Wall), 256

Kawasaki Disease
—Aspect radiologique et échographique de la maladie de Kawasaki: Expérience de 75 cas à l'hôpital Sainte-Justine de Montréal, (Guérin, van Doesburg, Nicolas, Grignon, Fournier), 229

Kidney
—Quantitation of the prominent medullary pyramid: A reappraisal, (Paling, Black), 90
—Acquired cystic disease of the kidney in patients on hemodialysis, (Taves), 161

Knees
—Computed arthrotomography with multiplanar reformations and three-dimensional image analysis in the evaluation of the cruciate ligaments: Preliminary investigation, (Kursunoglu, Pate, Resnick, André, Sartoris), 153

Labor
—Frequency of efficacy of pelvimetry: Saskatoon experience, (Miller), 273

Large Bowel Obstruction
—CT guided percutaneous decompression of a rectal duplication cyst in a child, (Ramsewak, Millward, Toi, Cameron), 46

Left Gastric Artery
—Ultrasound visualization of a mycotic left gastric aneurysm, (Arenson, Huang, McKee), 285

Lipoma
—Lipoma of the liver, (Pham, Manley, Nguyen), 283

Liver
—Lipoma of the liver, (Pham, Manley, Nguyen), 283
—Radiologic assessment of bile duct complications in liver transplantation: Initial experience, (Olutola, Hutton, Wall), 276

Liver Angiography
—Recurrent hepatoma with CT, MRI, and angiographic correlation, (Zalev), 114

Lung
—Antenatal ultrasound diagnosis of cystic adenomatoid malformation of the lung, (Fitzgerald, Toi), 48
—Traumatic pulmonary artery pseudoaneurysm, (Gavant, Winer-Muram), 108

Lymphangiography
—Subcutaneous lymphocele following trauma to the thoracic duct, (Saibil, Howard, McKee, Taylor), 213

Lymphangioma
—Computed tomography of hemangiomas and related soft-tissue lesions in children, (Liu, Daneman, Stringer, Smith), 248

Lymphocele
—Subcutaneous lymphocele following trauma to the thoracic duct, (Saibil, Howard, McKee, Taylor), 213

Magnetic Resonance Imaging
—Recurrent hepatoma with CT, MRI, and angiographic correlation, (Zalev), 114
—Magnetic resonance imaging of the mediastinum, (Poon, Bronskill, Henkelman, Dunlap, Blend, Herman, Majesky, Ginsberg), 173
—Ductus arteriosus aneurysm in Marfan syndrome, (Müller, Mayo, Culham, Nichols), 195
—Hazards and associated recommendations for Canadian MR imaging sites, (Prato, Nicholson, Smith, Drost), 233

Magnetic Resonance Safety
—Hazards and associated recommendations for Canadian MR imaging sites, (Prato, Nicholson, Smith, Drost), 233

Malignant Liver Tumors
—Ultrasonically guided fine-needle biopsy in focal intrahepatic lesions: six years' experience, (Bret, Sente, Bretagnolle, Fond, Labadie, Paliard), 5

Mammography
—Audit procedures in the national breast screening study: Mammography interpretation, (Baines, McFarlane, Wall), 256

Marfan Syndrome
—Ductus arteriosus aneurysm in Marfan syndrome, (Müller, Mayo, Culham, Nichols), 195

Marshmallow Barium Swallow
—Comparison of endoscopy and barium swallow with marshmallow in dysphagia, (Somers, Stevenson, Thompson), 73

Mediastinal Germ Cell Tumor
—Superior vena caval syndrome in primary mediastinal germ cell tumors, (Holbert, Libshitz), 182

Mediastinal Lymphadenopathy
—Mediastinal and hilar lymphadenopathy as the only manifestation of metastatic carcinoma of the cervix, (Scott, Bergin, Müller), 52

Mediastinum
—Mediastinal and hilar lymphadenopathy as the only manifestation of metastatic carcinoma of the cervix, (Scott, Bergin, Müller), 52
—Magnetic resonance imaging of the mediastinum, (Poon, Bronskill, Henkelman, Dunlap, Blend, Herman, Majesky, Ginsberg),

Medullary Pyramid Index
—Quantitation of the prominent medullary pyramid: A reappraisal, (Paling, Black), 90

Medullary-Renal Ratio
—Quantitation of the prominent medullary pyramid: A reappraisal, (Paling, Black), 90

Metastases
—Antenatal sonographic diagnosis of adrenal neuroblastoma, (Fowlie, Giacomantonio, McKenzie, Baird, Covert), 50

Multiple Lipomatosis
—Hibernoma: A patient examined by CT, (Coblentz, Roberts, Fitzgerald), 110

Multiple Myeloma
—Plasma cell sclerosis of bone: A spectrum of disease, (Sartoris, Pate, Haghighi, Greenway, Resnick), 25

Mycotic Aneurysm
—Ultrasound visualization of a myotic left gastric aneurysm, (Arenson, Huang, McKee), 285

Myelography
—Epidermoid tumor: An unusual cause of ossification within the spinal canal, (Willinsky, Tator, Lewis, Cooper, Kassel), 56

Needle Biopsy
—Seeding of malignant cells into the needle track after lung and pleural biopsy, (Müller, Bergin, Miller, Ostrow), 192

Neoplasms
—Magnetic resonance imaging of the mediastinum, (Poon, Bronskill, Henkelman, Dunlap, Blend, Herman, Majesky, Ginsberg), 173

Neuroblastoma
—Antenatal sonographic diagnosis of adrenal neuroblastoma, (Fowlie, Giacomantonio, McKenzie, Baird, Covert), 50

Non-Ionic Contrast Media
—The incidence of cardiac arrhythmias during intravenous digital subtraction angiography: A comparison of peripheral and central injections, (Treweeke, Thomas), 83

Oat Cell Carcinoma
—Le carcinome à petites cellules ("oat cell" carcinoma) de l'oesophage, une lésion rare: présentation de deux nouveaux cas, (Hurtubise, Paquin), 104

Obstruction
—Superior vena caval syndrome in primary mediastinal germ cell tumors, (Holbert, Libshitz), 182

Oculocutaneous Albinism
—The Hermansky-Pudlak syndrome: Radiographic features, (Leitman, Balthazar, Garay, Naidich, McCauley), 42

OS Odontoideum
—Absent dens on submentovertex view of the skull: New sign of an abnormal odontoid, (Gurney), 38

Osteoporosis
—Review: The radiologic measurement of bone, (Hangartner), 143

Osteosclerosis
—Plasma cell sclerosis of bone: A spectrum of disease, (Sartoris, Pate, Haghighi, Greenway, Resnick), 25

Pancreas
—The combination of endoscopic sphincterotomy and percutaneous abscess drainage in the management of complicated biliary pancreatitis, (Frost, Ramsewak, Stevenson), 238

Pancreatic Calcification
—Pancreatic cysts and calcification in cystic fibrosis, (Liu, Daneman, Stringer, Durie), 279

Pancreatic Cysts
—Pancreatic cysts and calcification in cystic fibrosis, (Liu, Daneman, Stringer, Durie), 279

Papillary Necrosis
—Displaced calcium as a sign of transitional cell carcinoma in analgesic nephropathy, (Marrocco, Leekam, Matzinger, Gray), 122

Pediatric Radiology
—The value of the small bowel enema in children, (Stringer, Cloutier, Daneman, Durie), 13

Pediatrics
—Pancreatic cysts and calcification in cystic fibrosis, (Liu, Daneman, Stringer, Durie), 279

Pelvimetry
—Frequency and efficacy of pelvimetry: Saskatoon experience, (Miller), 273

Percutaneous Drainage
—Failure in placement of trocar-mounted catheters, (Gray, St. Louis, Grosman), 102

Percutaneous Fine-Needle Biopsy
—Ultrasonically guided fine-needle biopsy in focal intrahepatic lesions: six years' experience, (Bret, Sente, Bretagnolle, Fond, Labadie, Paliard), 5

Percutaneous Gastrostomy
—Failure in placement of trocar-mounted catheters, (Gray, St. Louis, Grosman), 102

Percutaneous Nephrostomy
—Failure in placement of trocar-mounted catheters, (Gray, St. Louis, Grosman), 102

Percutaneous Puncture
—Distention of intestinal tube balloons causing small bowel obstruction, (Shapir, Braver), 203

Perforation
—Spontaneous extrahepatic biliary duct perforation in infancy, (Fawcett, Hayden, Swischuk, Lobe), 206

Perilunar Dislocation
—Dorsal dislocation of the radiocarpal joint with associated dorsal perilunar dislocation, (Klein, Bohrer, Martin), 201

Peripheral Arthritis
—Pyoderma gangrenosum and erosive peripheral arthritis, (Griffiths, Sundaram), 125

Peripheral Angiography
—Comparison of intra-arterial digital subtraction angiography and conventional filming in peripheral vascular disease, (Sniderman, Morse, Strauss), 76

Placental Abnormalities
—Placental chorioangioma, an unusual cause of polyhydramnios: Antenatal diagnosis, (Zalev), 60

Plasma Cell Dyscrasia
—Plasma cell sclerosis of bone: A spectrum of disease, (Sartoris, Pate, Haghighi, Greenway, Resnick), 25

Plasma Cell Granuloma
—Plasma cell sclerosis of bone: A spectrum of disease, (Sartoris, Pate, Haghighi, Greenway, Resnick), 25

Polycystic Kidney
—Adult polycystic horseshoe kidney, (Dobranowski, Somers, Pirani), 208

Pregnancy
—The ultrasonographic features of nonimmune hydrops fetalis: A study of 30 successive patients, (Brown), 164
—Frequency and efficacy of pelvimetry: Saskatoon experience, (Miller),

Pseudocyst
—The combination of endoscopic sphincterotomy and percutaneous abscess drainage in the management of complicated biliary pancreatitis, (Frost, Ramsewak, Stevenson), 238

Polyhydramnios
—Placental chorioangioma, an unusual cause of polyhydramnios: Antenatal diagnosis, (Zalev), 60

Pseudogestational Sac
—Ultrasound findings in ectopic gestation, (Simons, Cooperberg, Graham), 9

Pulmonary Artery
—Traumatic pulmonary artery pseudoaneurysm, (Gavant, Winer-Muram), 108

Pulmonary Fibrosis
—The Hermansky-Pudlak syndrome: Radiographic features, (Leitman, Balthazar, Garay, Naidich, McCauley), 42

Pulmonary Hypertension
—Cystic fibrosis: A comparison of computed tomography and plain chest radiographs, (Jacobsen, Houston, Habbick, Genereux, Howie), 17

Pyoderma Gangrenosum
—Pyoderma gangrenosum and erosive peripheral arthritis, (Griffiths, Sundaram), 125

Quality Assurance
—Audit procedures in the national breast screening study: Mammography interpretation, (Baines, McFarlane, Wall), 256

Radiocarpal Dislocation
—Dorsal dislocation of the radiocarpal joint with associated dorsal perilunar dislocation, (Klein, Bohrer, Martin), 201

Radiography
—Frequency of efficacy of pelvimetry: Saskatoon experience, (Miller), 273

Radiological Protection
—Report on the 1985 Eastbourne meeting of the International Commission on Radiological Protection, (Thorne), 216

Reactive Arthritis
—Pyoderma gangrenosum and erosive peripheral arthritis, (Griffiths, Sundaram), 125

Real-Time Ultrasonography
—Ultrasound findings in ectopic gestation, (Simons, Cooperberg, Graham), 9

Recessive Genetic Disorder
—The Hermansky-Pudlak syndrome: Radiographic features, (Leitman, Balthazar, Garay, Naidich, McCauley), 42

Rectal Duplication Cyst
—CT guided percutaneous decompression of a rectal duplication cyst in a child. (Ramsewak, Millward, Toi, Cameron), 46

Renal Calcinosis
—Displaced calcium as a sign of transitional cell carcinoma in analgesic nephropathy. (Marrocco, Leekam, Matzinger, Gray), 122

Renal Veins
—Segmental renal venous catheterization: Technical note. (Zalev), 100

Renin Assay
—Segmental renal venous catheterization: Technical note. (Zalev), 100

Site Preparations
—Hazards and associated recommendations for Canadian MR imaging sites. (Prato, Nicholson, Smith, Drost), 233

Skip Lesions
—The value of the small bowel enema in children. (Stringer, Cloutier, Daneman, Durie), 13

Sternocostoclavicular Hyperostosis
—Plasma cell sclerosis of bone: A spectrum of disease. (Sartoris, Pate, Haghighi, Greenway, Resnick), 25

Skull
—Changes at the base of skull and cervical spine in Down syndrome. (Miller, Capusten, Lampard), 85

Small Bowel Enema Examination
—The value of the small bowel enema in children. (Stringer, Cloutier, Daneman, Durie), 13

Small Bowel Obstruction
—Distention of intestinal tube balloons causing small bowel obstruction. (Shapir, Braver), 203

Spinal Canal Radiography
—Epidermoid tumor: An unusual cause of ossification within the spinal canal. (Willinsky, Tator, Lewis, Cooper, Kassel), 56

Spasm
—Methysergide-induced lower extremity arterial insufficiency. (Dorne, Satin), 210

Sphincterotomy
—The combination of endoscopic sphincterotomy and percutaneous abscess drainage in the management of complicated biliary pancreatitis. (Frost, Ramsewak, Stevenson), 238

Spine
—Changes at the base of skull and cervical spine in Down syndrome. (Miller, Capusten, Lampard), 85

Submentovertex Projection
—Absent dens on submentovertex view of the skull: New sign of an abnormal odontoid. (Gurney), 38

Supratentorial Hemangioblastoma
—Supratentorial hemangioblastoma associated with Von Hippel Lindau disease: Case report and review of the literature. (Miller, Tucker, Bilbao), 35

Tentorium
—Increased density of tentorium and falx: A false positive CT sign of subarachnoid hemorrhage. (Spiegel, Fox, Vinuela, Pelz), 243

Terminal Ileum
—The value of the small bowel enema in children. (Stringer, Cloutier, Daneman, Durie), 13

Testis
—Ultrasound diagnosis of a benign calcified testicular mass: Report of a case. (Lipinski, Rao), 112

Thorax
—Magnetic resonance imaging of the mediastinum. (Poon, Bronskill, Henkelman, Dunlap, Blend, Herman, Majesky, Ginsberg), 173

Thyroid
—Sonographic guidance of thyroid needle biopsy. (Goldfinger, Rothberg, Stoll), 186

Transitional Cell Carcinoma
—Displaced calcium as a sign of transitional cell carcinoma in analgesic nephropathy. (Marrocco, Leekham, Matzinger, Gray), 122

Transplantation
—Radiologic assessment of bile duct complications in liver transplantation: Initial experience. (Olutola, Hutton, Wall), 276

Trauma
—Traumatic pulmonary artery pseudoaneurysm. (Gavant, Winer-Muram), 108
—Subcutaneous lymphocele following trauma to the thoracic duct. (Saibil, Howard, McKee, Taylor), 213

Treatment Planning
—A technique for multiplanar reformation and three-dimensional analysis of computed tomographic data: Application to adult hip disease. (Sartoris, Resnick, Bielecki, André, Gershuni, Meyers), 69

Tuberculosis
—Fine-needle aspiration biopsy of adrenal tuberculosis. (Yee, Gopinath, Ho, Tao), 287

Tumor Seeding
—Seeding of malignant cells into the needle track after lung and pleural biopsy. (Müller, Bergin, Miller, Ostrow), 192

Ultrasonography
—Ultrasound visualization of a mycotic left gastric aneurysm. (Arenson, Huang, McKee), 285
—Aspect radiologique et échographique de la maladie de Kawasaki: Expérience de 75 cas à l'hôpital Sainte-Justine de Montréal. (Guérin, van Doesburg, Nicolas, Grignon, Fournier), 239
—Pancreatic cysts and calcification in cystic fibrosis. (Liu, Daneman, Stringer, Durie), 279
—Lipoma of the liver. (Pham, Manley, Nguyen), 283
—Ultrasound diagnosis of a benign calcified testicular mass: Report of a case. (Lipinski, Rao), 112
—Acquired cystic disease of the kidney in patients on hemodialysis. (Taves), 161
—The ultrasonographic features of nonimmune hydrops fetalis: A study of 30 successive patients. (Brown), 164
—Sonographic guidance of thyroid needle biopsy. (Goldfinger, Rothberg, Stoll), 186
—Prenatal and immediate postnatal ultrasonographic diagnosis of ureterocele. (Fitzsimons, Frost, Millward, DeMaria, Toi), 189
—Spontaneous extrahepatic biliary duct perforation in infancy. (Fawcett, Hayden, Swischuk, Lobe), 206
—Adult polycystic horseshoe kidney. (Dobranowski, Somers, Pirani), 208
—Ultrasonically guided fine-needle biopsy in focal intrahepatic lesions: six years' experience. (Bret, Sente, Bretagnolle, Fond, Labadie, Paliard), 5
—Detection of an asymptomatic gastroduodenal artery aneurysm by real-time and pulsed Doppler sonography. (Dufresne, Dubuc, Nicolet, Prénovault), 40
—Antenatal ultrasound diagnosis of cystic adenomatoid malformation of the lung. (Fitzgerald, Toi), 48
—Antenatal sonographic diagnosis of adrenal neuroblastoma. (Fowlie, Giacomantonio, McKenzie, Baird, Covert), 50
—Placental chorioangioma, an unusual cause of polyhydramnios: Antenatal diagnosis. (Zalev), 60
—Quantitation of the prominent medullary pyramid: A reappraisal. (Paling, Black), 90

Ultrasound-Guided Biopsy
—Sonographic guidance of thyroid needle biopsy, (Goldfinger, Rothberg, Stoll), 186

Ureterocele
—Prenatal and immediate postnatal ultrasonographic diagnosis of ureterocele, (Fitzsimons, Frost, Millward, DeMaria, Toi), 189

Urinary Bladder Obstruction
—CT guided percutaneous decompression of a rectal duplication cyst in a child, (Ramsewak, Millward, Toi, Cameron), 46

Von Hippel Lindau Disease
—Supratentorial hemangioblastoma associated with Von Hippel Lindau disease: Case report and review of the literature, (Miller, Tucker, Bilbao), 35

Vena Caval Syndrome
—Superior vena caval syndrome in primary mediastinal germ cell tumors, (Holbert, Libshitz), 182

William Syndrome
—Regression of aneurysmal bone cyst following open biopsy, (Scott, Connell, Duncan), 198

Xeroradiography
—Xeroradiography in the diagnosis of the Haglund syndrome, (Burhenne, Connell), 157
